

In Summary

By participating in this series you will gain a chance to work with peers nationally who share your values and are committed to offering an entitlement to a whole education to all our children and young people in our schools as the best way to enable them to thrive in life and work.

The programme will be both aspirational and uplifting but also responsive to current issues and challenges. It will seek to build our collective confidence to stay true to what we believe in and to find ways of delivering too. Common interests, priorities, roles and contexts within the groups will enable the programme to be responsive and truly meet your needs.

Leadership, Culture and Change Series

Values led vision to provision

Cohort programme in 2016/17 for Heads,
Executive Heads and MAT Chief Executives

“My advice to new MATs and Academy Sponsors is don’t create a structural dimension unless you’re going to do something different ... think about the pedagogical practices, the leadership practices and the collaboration in your schools”

Sir David Carter, WE Annual Conference Nov 2015

“We are entering an era in our education system where as leaders you need to balance a clear vision with spotting gaps in the hedge”

Prof Sir Tim Brighouse, WE Annual Conf 2015

“Your most important role as a leader is empowering leaders at all levels to be able to deliver your collective vision for learning that will enable all young people to succeed”

Prof Andy Hargreaves, Professional Capital

Leadership Culture and Change Series 2016/17 Introduction and Rationale

The Whole Education Network is launching a new and discriminating offer for leaders of Member Schools and MATs with 5 major benefits:

1. Expert workshops with leading system thinkers

Three sessions per year with inputs from national and international system leaders including, Professor Tim Brighouse and Professor Andy Hargreaves.

2. Leadership visits to WE Member Schools and MATs

Focused leadership visits to Whole Education network schools around the country to explore not only what they are doing but their vision to provision journey and how they are achieving success. Also learn how peer cohort colleagues are applying similar approaches and ideas.

3. Respond to current challenges and explore “big ideas”

Having a vision and sharing values is one thing; finding ways of implementing and sustaining that vision is harder. This series will provide an unrivalled opportunity for like-minded colleagues to explore “big ideas” and learn how others have delivered their vision while responding to more immediate challenges and opportunities.

4. Reflect, share and learn with peers to refine your thinking

This series will sustain and support the evolution of your vision, while enabling you to grow your informal peer networks with colleagues who share your values. Peers will be supported to collaborate within and beyond the series.

5. Invest in your own professional development

Invest in your professional development through this stimulating and inspiring series. Build your professional, intellectual and social capital together as part of this programme and link to your own performance management and professional development priorities.

Leadership Culture and Change Series 2016/17

Overall DNA Theme: Vision to Provision

Summary of Opportunity and Programme

This is not a traditional leadership development program. Our research with WE school leaders told us you need something different:

Inspiration and Personalisation: you all get access to best thinkers but can tailor your peer learning experiences to your interests

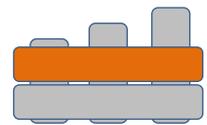

Phase Specific and Cross Phase: Primary Streams, Secondary Streams, MAT Streams, plus opportunity to change phases

Peer Cohorts: we curate peer cohort learning groups based on your shared interests – both by visits/term and through out series

Learning and Content: flipped learning for deeper engagement with peers; term peer groups input to future learning focus

Additional Opportunities: brokered around policy influence, impact projects, peer/expert coaching and other emerging interests

Expert Workshops Series: Key Features

Expert Inputs

Highest quality inputs from respected national and international experts

Mixed Pedagogy

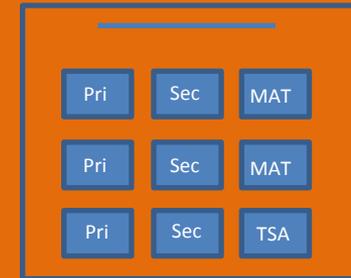

Mix of flipped learning, expert inputs, discussion with experts and peers, reflection

Responsive

Responsive to emerging policy context as well as personal needs and interests
