Leadership, Culture and Change Series

Session 1: Perspectives on Leadership

The first session of the Leadership, Culture and Change series offered attendees perspectives on leadership from three eminent contributors:

- + Sir Tim Brighouse urged attendees to overcome insurmountable challenges by identifying 'gaps in the hedge'.
- + Professor Andy Hargreaves encouraged delegates to have a dream - but to ensure your bold vision is also specific.
- + Caroline Waters OBE advocated the importance of trust between leaders and their teams and advised how to fill a 'trust store'.

Caroline Waters, Trusted Leadership

“Very refreshing theme - clearly delivered. Useful to have a speaker from outside the education sphere talking about leadership.”

Peter Smart, Newcastle School

Andy Hargreaves, Uplifting Leadership

“Andy reinforced the need for bold solutions at a time when the landscape is confusing.”

James Pope, Marlwood School
